Helen Saman Abduallah

Email: dev.helensaman@gmail.com

Contact Number: +964 750 182 3886

Date of Birth: 2/8/2004

Marital Status: Single

Objective:

Aspiring software developer with a strong foundation in front-end development (HTML, CSS, JavaScript) and Java programming, along with hands-on experience building desktop applications. Currently pursuing a degree in Information Technology, I have successfully delivered academic projects showcasing my problem-solving skills and technical adaptability. Eager to leverage my knowledge in a collaborative environment as an intern/junior developer, where I can contribute to real-world projects, refine my coding expertise, and grow under the mentorship of industry professionals. Passionate about writing clean, efficient code and staying updated with emerging technologies to drive innovation

---

Experience:

-I have experience in developing and deploying a website for gathering my institute's photo, built with HTML, CSS and Java. The development process took me around a week to complete .

-Additionally, I have experience in building a C#-based desktop application-a café management system-which I developed in just 15 days.

- I possess expertise in graphic design with Photoshop, including designing posters, food menus, animations, and multiple other types of visual content

---
